Hill Ram Catalogue Explanation Page

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

The information provided in this catalogue should **never be the only tool** used when selecting animals for breeding. Animals must also be examined to ensure physical correctness; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of the information provided in this catalogue and should be avoided for breeding purposes. See below how to interpret this Hill Ram catalogue.

Animal Breeder & Owner Details:	Animal ID: (Name, Pedigree ID, NSIS)	Animal Details: DOB, Breed, Sex & Birth Rank	Sire or Parentage DNA Verified: The parentage of this sheep has been confirmed to be accurate using genotyping (DNA)	Scrapie: This indicates the level of scrapie resistance based on the animals genotype. This scrapie result can be DAFM approved for export if the animal in question is fully parentage verified (Sire and Dam).
