Bidding Number and Catalogue in Mart Office

Hill Ram Catalogue Explanation Page

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

The information provided in this catalogue should **never be the only tool** used when selecting animals for breeding. Animals must also be examined to ensure physical correctness; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of the information provided in this catalogue and should be avoided for breeding purposes. See below how to interpret this Hill Ram catalogue.

Animal Breeder & Owner Details:	Animal ID: (Name, Pedigree ID, NSIS)	Animal Details: DOB, Breed, Sex & Birth Rank	Sire or Parentage DNA Verified: The parentage of this sheep has been confirmed to be accurate using genotyping (DNA)	Scrapie: This indicates the level of scrapie resistance based on the animals genotype. This scrapie result can be DAFM approved for export if the animal in question is fully parentage verified (Sire and Dam).

Lot 1: Breeder & Owner: LIAM & DAVID COEN • Hollymount, Co. Mayo • DQI: 59%				
LEHINCH SC2302871, IE043230702871G DOB: 16-APR-2023 • Lanark • Male • Twin • Parentage DNA Verified • Scrapie: Type 2				
Sire: MIDLOCK 3.5K IE046166000384B	— MIDLOCK 2021 MID210001 — MIDLOCK MID20001	Dam: AULDHOUSEBURN AB2100068	— MCCURDY 30K 30K — AULDHOUSEBURN AB2020	
Comment: Super power and skin to this lamb				

Sire Information. Grand Sire & Grand Dam information also provided (if available)	Flock DQI: Data Quality Index rates a flock on their data recording. Data completeness, timeliness and quality are the criteria assessed.	Dam Information. Grand Sire & Grand Dam information also provided (if available)	SIS Yes: This Hill ram will qualify for the Sheep Improvement Scheme, provided it is purchased by a hill ram in the year that they selected the Genotyped Ram task upon joining SIS.	Genotyped: This animal has been genotyped via Sheep Ireland.
-----------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------

Sheep Improvement Scheme Eligibility – Hill ram breeders that are members of an existing hill ram breeding group/association are eligible to produce SIS eligible hill rams. The objective of this SIS task is to lay the foundation for hill sheep flockbooks (ancestry database) into the future. Encouraging the use of ‘Sire Verified’ Hill rams delivers major immediate benefit to the hill sector including; Ram buyers can now control Inbreeding risk (by monitoring ancestry info) & Scrapie resistance information.

RamSearch.ie

To locate more SIS eligible hill rams in your area visit the Sheep Ireland Online Ram search ‘ramsearch.ie’. Here you can search for rams by hill breed, county & SIS eligibility.
